Panic Button
setup wizard

Panic Button
is an emergency
alert app for
people at risk.

- App disguises itself to avoid discovery

- Alerts are sent via SMS every 5 minutes

- Current location is automatically added

- Phone message logs are erased

- Limited emergency contacts for security

- Option to post alert to Twitter via SMS

First, set a password

create a password

6-12 characters, something easy to remember and quick to enter — you cannot change it.

Setting a password helps secure the app, you must enter it to access the Settings screen hidden behind the calculator disguise.

You do *not* need to enter it to send an alert.
